

Curriculum Vitae

Remco Roos

Senior Project manager multidisciplinary

Personal data

Name: Remco Roos

Place of residence: Rijswijk

company: Roos Project Partners BV

Phone: 0031-640534197

E-mail Roos Project Partners BV: RoosPP-BV@hotmail.com

Email privé: RR_35@hotmail.com

KvK: 93538685

Profile:

With more than 25 years of experience in various roles within the engineering and construction sector, I have developed into an expert and result-oriented project manager. My career includes experience at engineering firms, field engineering and assignments for end users, consultancies and contractors. This enables me to successfully manage both small and large-scale projects, with a keen eye for budget control and planning.

My strength lies in building strategic, sustainable partnerships with engineering teams, contractors, suppliers and service providers. I have strong communication skills and provide transparent, timely reports to clients, which promotes trust and efficiency within projects.

The energy transition is an important driver for me. As a Senior Project Manager at Shell, I was responsible for a wide range of low, medium and high voltage projects.

I am a pro-active, and pragmatic positive project manager who is regularly present at the workplace to keep a finger on the pulse. I am looking for a new challenge in which I can use my expertise, experience and education in the industry.

Education:

- **2017:** Advanced Diploma of Electrical and Instrumentation Engineering (DEI) Bachelor
 - **2007:** Facility Management (HBO)
 - **1999:** HTS Electronics(HBO)
 - **1988:** MTS Energietechniek (ETS)
 - **1987:** MTS Elektronica (ETS)
-

Courses & Certifications

- **2024:** MPES-1, Managing Project Execution & Start-up I
- **2023:** Contractmanagement & Team Leadership Training
- **2021:** Prince2 Foundation
- **2020:** VeWa Safety Water Diploma IV
- **2020:** VCA-VOL voor leidinggevende Certificering
- **2018:** LEAN/SCRUM Werkmethoden
- **2016:** ATEX voor Gas/Dust Installaties
- **2016:** BOSIET Training
- **2013:** Corrosion Under Construction
- **2012:** Lloyds Specifications, Classification and Statutory Surveys
- **2010:** High Voltage voor IV/WV Stipel(NEN3140 en NEN3840)
- **2002:** Middle Management Course

Work experience 2004 - 2025

Joulz Energy B.V.

Senior Project Manager

Responsible for leading off-grid energy projects, with a strong focus on sustainability and efficiency.

These projects contains of a PV,EMS, diesel or gas generator and a **BESS** for working 24 hours on these. Latest project was a 4,5 MVA version at 10kV.

Discipline: stakeholdership, INFRA/civil, managing contractors.

Shell Pernis Refinery

Senior Project Manager

Responsible for all low, medium and high voltage projects and Arc Flash projects at Pernis and Europoort Refineries.

- Management of 3kV and 25kV switching units and associated infrastructure.
- Managing 16 Shell engineers and 50 contractors.
- Budget responsibility of approximately 10 million euros per substation.
- **Disciplines:** Infrastructure, Civil, E&I, piping and mechanical project parts.

RET Rotterdam

Senior Project Manager Energy

- Responsible for energy projects within metro, tram and bus systems.
- Project management for MCC, GRS, HVI, MVI and SCADA/TAB traction control systems.
- **Disciplines:** Infrastructure, Stakeholder ship, Civil and E&I project matters.

Warmtebedrijf Rotterdam (WBR)

Assetmanager

- Technical management of heat infrastructure and contacts with Eneco, Stedin and Vattenfall.
- Responsible for the technical condition of 40 kilometres of city heat pipeline and the underground pumping stations and personnel.
- Control of external repair work at Infra underground.

Exxon Mobil Rotterdam

Project Manager

- Managing multi- and single disciplinary projects at refinery and chemical plants on the Exxon Mobil site in Pernis/Botlek.
- Management of CAPEX and OPEX projects and budget monitoring.

Shell Technology Centre

Sr. Project Manager E&IC

- Managing Modification and Engineering Projects (MOC).

Bluewater Energy Services

Senior Lead Engineer / Project Leader E&I(A)

Offshore troubleshooting and project coordination for five FPSOs.

- Management of electrical and instrumentation projects, including FAT/SAT responsibility.

Languages

- Dutch (Native Mother tongue)
- English (fluent)
- German (Good)
- French (Basic)

Software skills

- SAP, Helix, Microsoft Office Suite, ERP
- Meridian, Visio, AutoCAD, Intools
- Axxerion, FMIS, Maximo, Cadac Organice
- Prince2, TEAMS

Competences

1. Managing multiple complex projects simultaneously
1. Good stakeholder management and communication
1. Excellent communication skills and the ability to switch between various stakeholders.
1. Drawing up and monitoring project budgets and schedules
1. Managing multidisciplinary teams including Engineering teams
1. Contractmanagement in Prince 2 Housekeeper-Methodology
1. Ensuring safety and quality within projects
1. Strong analytical skills and a proactive work attitude
1. Knowledge of systems engineering and Lean methodologies

Motto: *"A satisfied stakeholder is achieved with a good RFC package, a proper Budget and schedule that are planned and delivered on time, and if an as-built package is delivered within three months of SAT."*
